

Humanoid Robot Prices & Deployment Status

The July 2026 verified table. Every price comes from the manufacturer's own store, order page, or regulatory filing. Every deployment claim is tiered by evidence, not by press release.

EDITION 2026-07 PRICES RE-CHECKED 24 JUL 2026 DEPLOYMENT BOARD 16 JUL 2026 THERESAROBOTFORTHAT.COM

RULE 1 • PRICES

A price appears here only if the maker publishes it on its own property or in a filing. Reseller listings, aggregator guesses, and LLM answers never qualify.

RULE 2 • DEPLOYMENT TIERS

Tier 1 Deployed: named arms-length customer in ongoing operation. Tier 2 Piloting: named external pilot. Tier 3 Demoining: public demonstrations only.

RULE 3 • HONEST GAPS

"No published price" is a verified finding, not a shortcut. It means the maker's store, order paths, and filings were checked and none discloses a figure.

Verified manufacturer prices

All figures are the maker's own published list prices as of 24 July 2026. Purchase prices unless marked otherwise. FX conversions state their source and date.

ROBOT	MAKER	FORM	PUBLISHED PRICE	PRICE SOURCE	DEPLOYMENT STATUS
Unitree R1 AIR	Unitree	Bipedal	\$4,900	Unitree store	NOT TIERED
Unitree R1	Unitree	Bipedal	\$5,900	Unitree store	NOT TIERED
Weave Isaac 1	Weave Robotics	Wheeled	\$7,999 or \$449/mo	Weave order page, pre-order	NOT TIERED
Astribot T1	Astribot	Wheeled	CNY 89,900 (≈\$13,165)	Astribot site	NOT TIERED
Unitree G1	Unitree	Bipedal	from \$13,500	Unitree store, excl. tax/shipping	TIER 2 • PILOTING
1X NEO	1X Technologies	Bipedal	\$20,000 or \$499/mo	1X order page	TIER 3 • DEMOING
AGIBOT X2	AGIBOT	Bipedal	\$24,240	AGIBOT store	NOT TIERED
EngineAI T800	EngineAI	Bipedal	from \$40,500	EngineAI intl. list (CN: CNY 180,000)	NOT TIERED
AiMoga Mornine M1	AiMOGA (Chery)	Bipedal	CNY 285,800 (≈\$42,200)	AiMOGA store on JD.com	NOT TIERED
AGIBOT A2 Lite	AGIBOT	Bipedal	\$44,560	AGIBOT store	TIER 3 • DEMOING
Unitree H1	Unitree	Bipedal	\$90,000	Unitree store	TIER 3 • DEMOING

Notes: USD figures for CNY prices use the maker's own stated conversion (Astribot) or the ECB reference rate of 6.77 CNY/USD on 24 Jul 2026 (AiMOGA). Astribot orders run through an enquiry form; Unitree lists the H1 price alongside a contact-for-price note. Weave Isaac 1 deliveries start in California in autumn 2026. Tier badges come from the TARFT deployment board; NOT TIERED means not yet on the evidence board, not a judgement about the product. AGIBOT A2 Lite carries the A2 line's tier.

Tracked robots without a published price

These are the most searched humanoids, and none of their makers publishes a unit price. Whoever quotes one anyway is quoting a guess. The deployment tier tells you how real each program is on the evidence.

ROBOT	MAKER	FORM	PRICE REALITY	DEPLOYMENT STATUS
Agility Digit	Agility Robotics	Bipedal	Robots-as-a-service, no rate disclosed	TIER 1 · DEPLOYED
Figure 02	Figure AI	Bipedal	No price, partner deployments only	TIER 1 · DEPLOYED
Galbot S1	Galbot	Wheeled	No published unit price	TIER 1 · DEPLOYED
Figure 03	Figure AI	Bipedal	No price, no pre-order	TIER 2 · PILOTING
Apptronik Apollo	Apptronik	Bipedal	Enterprise contact process, no list price	TIER 2 · PILOTING
UBTech Walker S2	UBTech	Bipedal	Contact sales, no unit price	TIER 2 · PILOTING
UBTech Walker S1	UBTech	Bipedal	Contact sales, no unit price	TIER 2 · PILOTING
Hexagon AEON	Hexagon	Wheeled	No published price	TIER 2 · PILOTING
Foundation Phantom MK-1	Foundation	Bipedal	No published price	TIER 2 · PILOTING
Humanoid HMND 01	Humanoid	Wheeled	No published price	TIER 2 · PILOTING
Leju Kuavo-5	Leju	Bipedal	No list price; IPO prospectus discloses CNY 308,100 as the 2025 series average realized price	NOT TIERED
Boston Dynamics Atlas	Boston Dynamics	Bipedal	Early-adopter program, no price	TIER 3 · DEMOING
Tesla Optimus	Tesla	Bipedal	No product page, no price, production not started as of 23 Jul 2026	TIER 3 · DEMOING
XPENG IRON	XPENG	Bipedal	No published price	TIER 3 · DEMOING
Neura 4NE-1	NEURA Robotics	Bipedal	No published price	TIER 3 · DEMOING

How to read this

Only two bipedal humanoids clear the bar for a verified arms-length deployment as of the July 2026 board: Agility Digit and Figure 02. Galbot S1 clears it on a wheeled base through CATL line operation. Everything else the market calls "deployed" is, on the published evidence, piloting or demoing. The gap between claimed and verified is exactly where buying decisions go wrong, and it moves monthly.

Method: PRICE-RESEARCH-PROTOCOL (manufacturer-property prices only, seven documented miss paths checked before "no published price" is written). Deployment tiers computed from 341 sourced, dated events; related-party deployments are flagged and excluded from tiering. This is a verified minimum, not an estimate.
